IC FAB change updated schedule of Fujimi Build. #D closure

Dear Valued Customer:

EPSON TOYOCOM Corp. maintains a continuous effort to improve the characteristics and performance of its product. As we informed by (SP)11-002, Fujimi Factory building #D closure and transfer semiconductor product to Sakata Plant has postponed by the influence of the East Japan Earthquake. And now fortunately Sakata Plant manufacturing condition and schedule has recovery from the earthquake damage. Then SEIKO EPSON CORP. resumes the Fujimi building #D closure and transfer to Sakata Plant as the following new schedule. Please complete evaluation and/or qualifying Sakata plant FAB change before starting new FAB manufacturing.

1. Products Affected : RTC and AT Oscillator (SPXO)

- RTC - 72421/72423
- RX - 5412 SF
- RTC - 9825 SA
- SG - 310 SEF/SDF/SCF
- SG - 550 SEF/SDF/SCF
- SG - 636 PCE/SCE/PDE
- SG - 636 PTF
- SG - 615 P
- SG - 531 P
- SG - 51 P

2. The changing Points

SEC Semiconductor Fujimi Plant to Sakata Plant transfer schedule has been resumed. Please refer the next page schedule for detail of each model.

(1) Current FAB

- * Plant name : SEIKO EPSON CORPORATION Fujimi Plant Building D
- Address : Fujimi 281 Fujimi-machi, Suwa-gun, Nagano Prefecture 399-0293, Japan

(2) FAB consolidated to

- * Plant name : SEIKO EPSON CORPORATION Sakata Plant Building T
- Address : Jurizuka 166-3, Sakata, Yamagata Prefecture 998-0194, Japan

(3) The Product data sheet won't be changed

3. Reason

Influence by the East Japan Earthquake on 11/March and the power blackout by after quake on 7/April, the transfer schedule has been postponed. But fortunately Sakata plant manufacturings are almost recovery, so SEIKO EPSON CORP. resumes the Fujimi BLD #D closure schedule and transfer production to Sakata as the following new schedules.

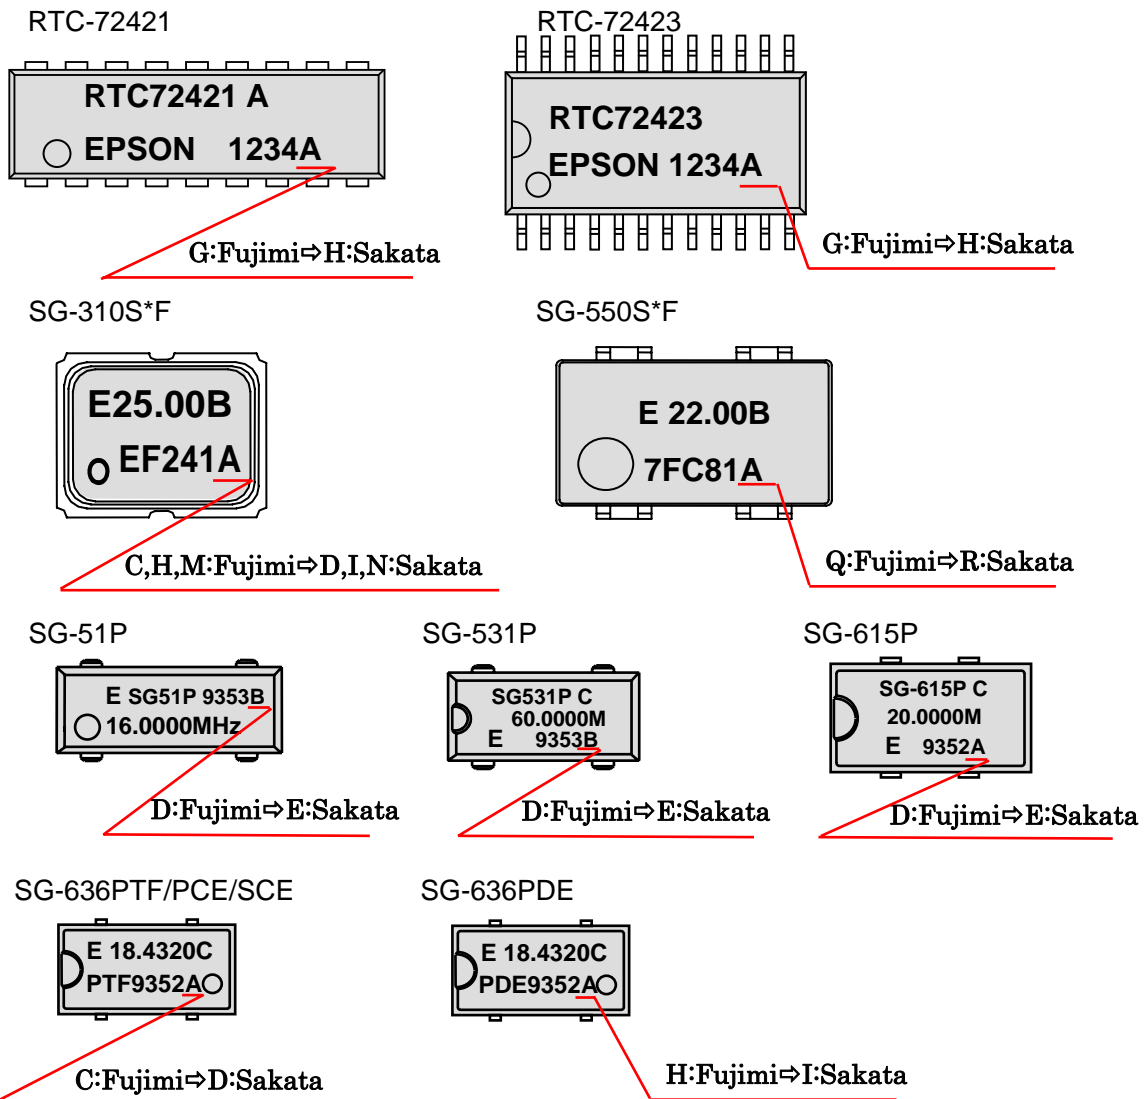

4. Revised schedule

Product name	Sample	Data available date		*MP start from
		E function	Rel data	
RTC-72421/72423	available	2011/3	2011/4	2011/10
RTC-9825 SA	TBD	TBD	TBD	TBD
RX-5411 LD	EOL by no future demand is expected			
RX-5412 SF	TBD	TBD	TBD	TBD
SG-310 SEF/SDF/SCF	2011/9	2011/9	2011/9	2012/2
SG-550 SEF/SDF/SCF	2011/9	2011/9	2011/9	2012/2
SG-636 PCE/ECE/PDE	available	2011/7	2011/7	2011/11
SG-615 P/SG-531 P/SG-51 P	available	2011/7	2011/7	2011/11
SG-636 PTF	available	2011/7	2011/7	2011/11

5. Others

(1) Identification

Marking of version number will be changed as ID. New version number will be deferent by each product type as shown below.

(2) EOL schedule related to Fujimi plant

There is no schedule change of EOL products. The LTB date was the end of Dec/2010 and all of LTB window was closed. We won't accept any additional order for the product followings;

- SG-51PH
- SG-531PH
- SG-615PH
- SG-636PH
- RX-4591CF
- RTC-9810SA
- RTC-9822SA
- RTC-9824SA

If there are any concerns with this notice, please discuss them with your local Epson representative. We appreciate your understanding.

Sincerely yours.
